

THE AMERICAN SPANIEL CLUB
VERSATILE PRODUCER (VP)
LEGACY VERSATILE PRODUCER (LVP)

VP and LVP awards are earned by American Kennel Club registered Cocker Spaniel sires and dams whose progeny achieve the required number points in conformation, companion and performance events as outlined below. Award owners are required to be members in good standing of the American Spaniel Club. Owners are responsible for submitting this application, along with requested title documentation, no later than February 15 of the calendar year following the completion of the VP or LVP requirements for award in July. **Please attach an AKC progeny report as proof of offspring and titles & copy of hip and eye papers.** The letters VP/LVP may be added behind your dogs' name on a pedigree after the award is received.

VP Requirements:

- Sires: Five qualifying progeny have earned a total of 52 points
- Dams: Three qualifying progeny have earned a total of 32 points

LVP Requirements:

- Any VP (sire or dam) producing an offspring that is also a VP will earn the designation Legacy Versatile Producer (LVP)

I request a VP () or LVP () Certificate for the following Cocker Spaniel:

Hip and Eyes Rec'd

AKC Name	AKC #	Sex

Owner Address		
Telephone		Email Address

AKC Registered Name of Titled offspring * required	AKC Number * required	Titles req & Year Title Awarded * not required	Committee use only
1.			
2.			
3.			
4.			
5.			

Please send this application to: Jeanne Grim, PO Box 980663, Marietta, GA 30068
Must be postmarked by March 15th to receive award in July

Date Received:

A. Requirements for Versatile Producer - Sire

1. Sire must produce 5 qualifying progeny.
2. The 5 qualifying progeny (used for point total) must earn a combined total of 52 points. Points are based on AKC/ASC titles earned as described in chart below.
3. At least 3 of the 5 qualifying progeny must each have an AKC/ASC title worth a minimum of seven points.
4. Two of the 5 required progeny may have a combination of two six point titles or a six point title and a five point title.
5. Points are not cumulative within a category. Only the highest title earned in each category will be counted.
6. The sire must produce at least two qualifying progeny with conformation points (needs 6 points under 3 different judges).
7. The sire must produce two qualifying progeny with an AKC/ASC title worth a minimum of 3 points, in performance or field.
8. Additional points may be earned by the qualifying progeny. All titles below the five point level will only count towards the total if earned by an already qualified progeny.
9. If minor or major championship points are used to qualify for a VP, the burden of proof lies with the owner. ASC will not track the accumulation of points, only titles.

B. Requirements for Versatile Producer - Dam

1. Dam must produce 3 qualifying progeny.
2. The 3 qualifying progeny (used for point total) must earn a combined total of 32 points. Points are based on AKC/ASC titles earned as described in chart below.
3. At least 2 of the 3 qualifying progeny must each have an AKC/ASC title worth a minimum of seven points.
4. One of the 3 required progeny may have a combination of two six point titles or a six point title and a five point title.
5. Points are not cumulative within a category. Only the highest title earned in each category will be counted.
6. The dam must produce at least one qualifying progeny with conformation points (needs 6 points under 3 different judges).
7. The dam must produce one qualifying progeny with an AKC/ASC title worth a minimum of 3 points, in performance or field.
8. Additional points may be earned by the qualifying progeny. All titles below the five point level will only count towards the total if earned by an already qualified progeny.
9. If minor or major championship points are used to qualify for a VP, the burden of proof lies with the owner. ASC will not track the accumulation of points, only titles.

Points	Conformation Area	Performance Area			Field Area	
		Obedience	Agility	Tracking	Noncompetitive	Competitive
