

Knoxville Convention Center & World's Fair Exhibition Hall
COVID Policy Statement for Attendees

The Knoxville Convention Center/World's Fair Exhibition Hall is dedicated to delivering a safe environment for our guests. We have put into action ASM Global's VenueShield program. Our comprehensive and industry-leading program implements procedures and protocols that align with approvals from local government officials and health care experts to provide the highest level of safety, security and consumer confidence. Guests will find reminders of the five core actions recommended by the Centers for Disease Control and Prevention and hand sanitizers at all touch points, throughout the facility; and masks are required for all individuals, non-vaccinated and vaccinated. We are operating diligently with trusted protection for the live experience.

This declaration is as of August 2, 2021 and subject to change by the City of Knoxville at any time. Licensee will be notified within twenty-four hours of an updated mandate if this occurs.
